

DAVID ARREBA

PRODUCT DESIGNER — DESIGN SYSTEMS SPECIALIST

+353 89 216 2281 | davidarrebacorral@gmail.com | darreba.space | Dublin, Ireland

ABOUT ME

I'm a Product Designer with over three years of experience in UX/UI design, specialised in design systems. I've worked across consultancies like Redbility, Accenture and Aluxion for clients such as Inditex, Acciona and CBRE, collaborating closely with product managers, engineers and stakeholders in agile teams. Naturally curious and proactive, I'm currently integrating AI into my workflow and always eager to take on new challenges that help me grow and contribute to meaningful digital products.

SKILLS

Design:

Product Design, UX/UI Design, Interaction Design, Visual Design, Prototyping, Information Architecture

Design Systems:

Multi-brand Design Systems, Design Tokens, Component Libraries, Accessibility (WCAG)

Research & Strategy:

User Research, User Interviews, Competitive Benchmarking, Journey Mapping, Design Sprints

Ways of Working:

Agile/Scrum, Design Thinking, Developer Handoff, AI-assisted design workflows

Tools:

Figma, Jira, Miro, Adobe Creative Suite (Photoshop, Lightroom, Premiere Pro), After Effects, Blender

EDUCATION

BA in Audiovisual Communication

University of Burgos | 2016 - 2020

Bootcamp UX/UI Design

Neoland | 2021

EXPERIENCE

Redbility UX Consultant — November 2023 - December 2025

Inditex

My time at Inditex was divided into two distinct phases, both focused on Design Systems for different products:

- **Sewing DS:** Collaborated on the maintenance and scalability of Inditex's internal Design System. Led cross-functional ceremonies with development teams and design verticals to ensure consistency, adoption and system evolution across internal tools.
- **Multitenant DS:** Spearheaded the creation of a multi-brand Design System to unify the digital presence of all Inditex e-commerce brands while preserving each brand's identity. Managed the full lifecycle, from defining design tokens and building scalable component libraries to developer handoff and integration.

Acciona

Contributed to the creation of Acciona's corporate web Design System: components, modules and page templates. Ensured full WCAG accessibility compliance for an inclusive, future-proof framework.

UCI (Unión de Créditos Inmobiliarios)

Played a strategic role in defining and launching UCI's Design System in a regulated financial environment, designing both the customer-facing web experience and an internal portal for financial advisors. Collaborated closely with development to define workflows and foundational system structures, and supported product teams with UX research and user-centred visual design.

Accenture Product Designer — January 2023 - November 2023

Aena

Designed intuitive and engaging user interfaces for Aena's digital products while contributing to UX research and early-stage product ideation. Worked in continuous collaboration with development teams and stakeholders to deliver cohesive, functional and user-friendly digital solutions.

Aluxion Product Designer — February 2022 - November 2022

Delivered end-to-end UX/UI design for clients including HLA Group (Asisa), CBRE, El Referente and Mitte, covering wireframing, high-fidelity design and interactive prototyping. Applied interaction design principles and adapted solutions to each client's brand and product needs. Supported product strategy through UX research methods such as user interviews and competitive benchmarking.
